

## Entering Historical Immunization Information

### Adding Historical Immunizations

1. Click **Immunizations**

2. Click the **History** button  in the bottom R corner

3. Click on the **Add to Selections** button  in the top L corner of the window

4. Click to select the immunization from the list

5. Click **Add**

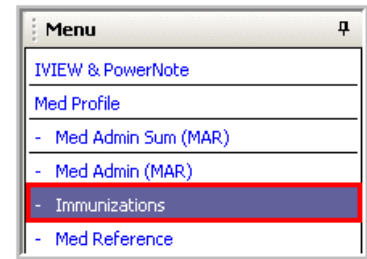

6. Enter all available information

*Note: Yellow fields are required fields and must be completed before you can sign.*

*Note: If the actual month and day are unknown enter 01/01 of the known year of immunization.*

7. Click on the **Chart** button

*Note: Historical immunization information will be added to the Previous Immunizations pane on the left side of the screen.*

### Administered Immunizations

- Immunizations administered and then charted in eMAR during an inpatient stay will show under the Immunizations
- When charting an immunization in eMAR there are yellow required fields that must be completed
