

UWMC ORCA UPDATE REPORT

October 6, 2009 – 2:00

Enhancement / Issue / Reminder		Update/Workaround/Best Practice
Medication Documentation	None	
IView & PowerForms	<u>Enhancement:</u> Unused Sub-groupers being removed from IView	Efforts to clean up IView have resulted in the removal of 34 sub-groupers without resultant parameters across multiple bands on Wednesday, October 7. For example, CHEST TUBES in Tubes/Drains/Nets. These sub-groupers need to be removed before new functionality can be added later this month.
Other Information	<u>Enhancement:</u> Dictionary in ORCA will be updated	The dictionary in ORCA was updated on October 6 due to users getting an error message when using it. The new dictionary is a medical dictionary. Efforts are still being made to allow users to add words to the dictionary.
	<u>Enhancement:</u> New Continuous Bladder Irrigation Job Aid on ORCA Ed	A new Continuous Bladder Irrigation Job Aid was posted on the ORCA Education website last week. To view and print the trifold job aid: <ol style="list-style-type: none"> 1. Go to www.orcaed.washington.edu (available in the Clinical Toolkit and the left column of Links & Reports in ORCA. 2. Click on New Job Aids to View/Print on the home page 3. Click on Continuous Bladder Irrigation Job Aid
System Performance	None
